THE SECRETARY OF ENERGY
WASHINGTON, D.C. 20585

October 3, 1986

Dear Mr. Casey:

The Senior Interagency Group for National Security Emergency Preparedness, established under NSDD-188, has asked me to establish an Interagency Group (IG) on Energy Vulnerability to address the most effective means to respond to threats against U.S. energy systems.

I have designated David B. Waller, Assistant Secretary for International Affairs and Energy Emergencies, to chair this group. I request that you designate a senior representative with national security emergency preparedness responsibilities to participate in this IG.

The first meeting of this IG is scheduled for November 13, 1986, from 10:00 a.m. to 11:00 a.m., in Room 8E-089, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. After an energy situation briefing, the focus of the meeting will be to establish a working group to work on emergency preparedness in the electric power industry and to reestablish a working group on data base and projections as part of this IG. A detailed agenda will be sent prior to the meeting. Thereafter, we plan to rely principally on working groups to develop proposals for consideration of the IG at meetings to be scheduled as necessary. Finn Neilsen, Director of the Office of Energy Emergency Plans and Integration (252-4000) will be the point of contact for the IG.

With your support, I am confident that we will be able to ensure implementation of the President's national security goals regarding energy. I look forward to working with you on the vital issues of energy vulnerability.

Yours truly,

A handwritten signature in dark ink, which appears to read "John S. Herrington", is written over the typed name.
John S. Herrington

Honorable William J. Casey
Director
Central Intelligence Agency
